**Investment summary:** The Cantor Fitzgerald Ireland Global Leaders Kick Out Bond II (the “Bond” or “Investment”) is a 5 year investment with the potential to redeem every 6 months after year 1 with a potential payment. Potential payments are linked to the performance of 4 leading global Stocks: Rio Tinto PLC (RIO LN), VINCI SA (DG FP), Ryanair Holdings PLC (RYA ID) and Sanofi (SAN FP).

**The Bonus Payments:** This bond can produce a maximum potential return of 55% for investors, at the Final Maturity Date even if the least performing stock has fallen by up to 10% from its Initial Price Level. The Bond has the potential to redeem early every 6 months from year 1 onwards. The potential payments to investors are calculated as 5.5% for every 6 month period of the term that has elapsed (or 11% per annum). If after year one or any subsequent semi-annual period, any of the 4 stocks are below their relevant 90% Step Down Kick Out Levels, no return is paid for that period and the Bond rolls onto the next period.

**The Step Down Feature:** This bond has an innovative “90% Step Down” feature which allows the product to pay out a bonus payment even if the 4 Stocks share prices have fallen from their Initial Valuation Levels. The step down levels for this bond are fixed at 90% on the Initial Level so the 4 Stocks share prices can reduce by up to 10% at any semi-annual valuation date after year 1. After the first year and every 6 months thereafter, should each of the 4 Stocks be equal to or above the 90% Step Down Kick Out Levels detailed in the table on the previous page then the Bond will be redeemed at that point in time. Each investor will then be repaid 100% of their initial capital plus the relevant return, and the product will terminate early. The 90% Step Down Kick Out Levels are set at the start of the investment term.

**The 50% Protection Barrier:** If the bond has not kicked out previously, at the end of 5 years (on the Final Valuation Date of 30th November 2026) this Bond returns 100% of investors’ capital if the least performing Stock has not fallen by more than 50% from the Initial Price Level (the 50% Protection Barrier).

**The Star Feature:** In addition this bond provides the added “Star” protection feature that if any of the 4 Stocks are equal to or above their Initial Price Level at the Final Valuation Date, 100% of investors Capital is also returned irrespective of the performance of the other 3 stocks.

**Risk:** If after 5 years at the Final Valuation Date the bond has not Kicked Out and any of the 4 Stocks are more than 50% below the Initial Price Level and if none of the 4 Stocks are above their Initial Price Level, investors’ capital will be reduced by the full amount of the negative performance of the least performing stock over the 5 year term (this is known as a ‘Knock In Event’). Investors’ capital is therefore at risk.

**Advice:** This product is being marketed on an advisory basis only. Prior to investing, it is important that you take advice from your Financial Advisor or from your Cantor Fitzgerald Ireland Ltd. portfolio manager / broker. We also draw your attention to the target market assessment provided in page 15 of the brochure.

**WARNING: If on the Final Valuation Date the Final Price Level of any of the 4 Stocks is more than 50% below its Initial Price Level and if no stock is above its Initial Price Level you will lose 50% or more of your initial investment.**

**WARNING: The return on your investment amount is linked to the solvency of BNP Paribas Issuance B.V. as Issuer and BNP Paribas as Guarantor, if either were to default you will lose some or all of your investment.**

**WARNING: Past performance is not a reliable guide to future performance.  
The value of investments may go down as well as up.**
