**US Innovative Leaders 5 Index (BNPIUL5 Index) % Growth\***

\*\*Data Source: Bloomberg; 16th September 2022.

\*The US Innovative Leaders 5 Index is based on Hypothetical Past Performance Data prior to January 28th 2020. Because the US Innovative Leaders 5 Index did not exist prior to this date, all retrospective levels and compositions provided in the graph above are simulated and must be considered illustrative only.

**WARNING:** This Investment is a complex investment product and may be difficult to understand. Investors should not invest in this product without having sufficient knowledge, experience and professional advice from their Financial Broker to make a meaningful evaluation of the merits and risks of investing in a product of this type, and the information contained in this document and the Base Prospectus.

**Investment Case For Innovative Technologies:** Technological Innovation is instrumental in delivering economic and productivity gains. It offers a key route to developing new tools and approaches for tackling major societal challenges and improving quality of life. Technology is one of the most important growth opportunities currently available to investors. We are likely still in the early stages of the technology revolution with a huge potential growth opportunity in the years ahead.

**Investment summary:** The Cantor Fitzgerald Ireland Capital Protected US Innovative Leaders Bond (the “bond” or “investment”) is a 5 year investment with returns linked to 150% of the performance of the US Innovative Leaders 5 Index (BNPIUL5 Index) (The Index) and there is no upside cap or limit on potential returns. If the index performance is positive at maturity, investors will receive 150% of the positive growth of the index. If the index performance is negative at maturity, investors will have 100% of their capital protected by the Bond Guarantor BNP Paribas. 150% of any positive returns from the index at maturity will be added to 100% of your capital invested and returned to you at the Final Maturity Date.

**The Index:** The US Innovative Leaders 5 Index is an excellent way for investors to gain diversified exposure across 50 leading stocks in the high growth areas of Artificial Intelligence, Robotics, Automotive Innovation, Healthcare Innovation, Data Computing and the Internet of things. The composition of the index is adjusted quarterly. The index analyses the extent to which a company has intellectual property and invests in research and development through their patent data. The index also invests in US treasury Bonds and hypothetical cash according to the Risk Control Mechanism.

**Risk Control Mechanism:** The US Innovative Leaders 5 Index implements a risk control mechanism to potentially reduce volatility and the magnitude of drawdowns during market corrections. In this way, the Index attempts to generate positive risk-adjusted returns, while controlling for risk. The Index creates a blended portfolio with equities and 10-Year US Treasuries and then targets an annualized realized volatility of 5% on a daily basis adjusting exposure to a hypothetical cash position, based on the volatility level. The index automatically decreases the exposure to the Equities & Bonds during periods of higher market volatility (above 5%) and systematically increases exposure to a hypothetical cash position. When Volatility is lower the index will systematically allocate more toward the Equities and US Treasury Bonds and less to hypothetical cash.

**Low Risk:** This bond is categorised as a low risk investment (SRI Risk Level 2 out of 7). If the index performance is positive at maturity investors will receive the Index performance along with 100% of their original capital invested. If the index is negative investors will receive 100% Capital protection at maturity. Capital protection and the investment returns are guaranteed by BNP Paribas. Other potential risks include the financial failure of BNP Paribas (as Guarantor). We would like to draw your attention to “What risks should be considered before investing?” on page 13 of the product brochure.

**Advice:** This product is being marketed on an advisory basis only. Prior to investing, it is important that you take advice from your Financial Advisor or from your Cantor Fitzgerald Ireland Ltd. portfolio manager / broker. We also draw your attention to the target market assessment provided in page 15 of the product brochure.

**WARNING: The return on your investment as well as the capital protected amount at maturity is linked to the solvency of BNP Paribas Issuance B.V. as Issuer and BNP Paribas as Guarantor, if both were to default you will lose some or all of your investment.**

**WARNING: Past performance is not a reliable guide to future performance.  
The value of investments may go down as well as up.**
