<b>Domicile country:</b>	Ireland

Document valid as at: 17 August 2023

## WHAT IS THIS PRODUCT?

### Type:

This investment fund is a Retail Investor Alternative Investment Fund (RIAIF)

### Term:

This product is not subject to any fixed term and provides daily dealing. The product does not have a maturity date and is not redeemable by the Manufacturer on any specific date.

### Objectives:

The Sub-Fund is an actively managed portfolio of broad and diversified range of assets, comprising equities listed on recognised markets, ETFs, bonds and Collective Investment Schemes, whose values are principally derived from infrastructure assets (or assets with similar characteristics to infrastructure, such as forestry). The Sub-Fund may use forward foreign exchange contracts, futures, and options for efficient portfolio management. The investment objective of the Sub-Fund is to generate regular, sustainable income and additional moderate capital returns for Unitholders, which will be generated through investments in infrastructure assets (or assets with similar characteristics to infrastructure) which themselves typically produce regular income. Investments are expected to be diversified across geographies, regulatory regimes, infrastructure technologies and infrastructure sectors (social infrastructure, renewable energy infrastructure and economic infrastructure), however, concentrations may emerge in line with the Investment Manager's views of opportunities within the infrastructure market.

The Sub-Fund promotes environmental characteristics, including a reduction of carbon emissions, climate change mitigation, and a number of other environmental and social characteristics by investing in a portfolio of infrastructure assets that provide such characteristics. The investee assets must also follow good governance practices in accordance with Article 8 of SFDR. The Fund does not have sustainable investment as its investment objective.

Distributions generated from underlying investment dividends will be allocated to Unitholders on a semi-annual basis on 30 June and 31 December. Shares can be redeemed on a daily basis.

For more information, please see the section entitled "Investment Policy" in the Supplement to the Prospectus.

WARNING: This Investment is a complex investment product and may be difficult to understand.

### Intended Retail Investor:

This Fund may not be suitable for investors who plan to withdraw their money within 5 years.

The product is intended to be offered to retail investors who:

1. have the ability to make an informed investment decision through sufficient knowledge and understanding of the product and its specific risks and rewards, with experience of investing in and/or holding a number of similar products providing a similar market exposure;
2. seek capital growth, expect the movement in the underlying asset to perform in a way that generates a favourable return, have an investment horizon of the recommended holding period specified below and understand that the product may terminate early;
3. accept the risk that the issuer or guarantor could fail to pay or perform its obligations under the product but otherwise are not able to bear any loss of their investment;
4. are willing to accept a level of risk to achieve potential returns that is consistent with the summary risk indicator shown below; and
5. are making use of professional advice.

## WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

The risk indicator assumes you keep the product for 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less. You may not be able to cash in early.

### Risk indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as class 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact the capacity of the fund to pay you.

The underlying funds may include illiquid assets such as alternative funds, real estate funds and/or non-quoted assets. These assets incur additional risks which are not considered in the indicator shown above when they do not represent a significant part of the underlying funds. These risks are that these assets could not be sold or not sold at the desired time and / or lead to significant losses. You may not be able to sell your product easily or may have to sell at a price that significantly impacts on how much you get back.

Be aware of currency risk. The underlying funds may receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

The value of investments and the income derived therefrom may fall as well as rise and investors may not recoup the original amount invested. Past performance is not a reliable guide to future performance. If you invest in this fund you may lose some or all of the money you invest.

### Performance scenarios

**What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.**

**The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product / a suitable benchmark over the last 10 years. Markets could develop very differently in the future.**

<b>Recommended minimum holding period: 5 years</b>			
<b>Investment 10 000 EUR</b>			
<b>Survival Scenarios</b>		<b>If you exit after 1 year</b>	<b>If you exit after 5 years</b> (recommended holding period)
<b>Minimum: There is no minimum guaranteed return. You could lose some or all of your investment.</b>			
<b>Stress scenario</b>	<b>What might you get back after costs</b>	1 290 EUR	<b>2 010 EUR</b>
	Average return each year	-87.14 %	- 27.48 %
<b>Unfavourable scenario</b>	<b>What might you get back after costs</b>	9 100 EUR	<b>8 170 EUR</b>
	Average return each year	-8.97 %	- 3.95 %
<b>Moderate scenario</b>	<b>What might you get back after costs</b>	10 560 EUR	<b>13 010 EUR</b>
	Average return each year	5.58 %	5.41 %
<b>Favourable scenario</b>	<b>What might you get back after costs</b>	12 530 EUR	<b>14 300 EUR</b>
	Average return each year	25.3 %	7.41 %

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable: This type of scenario occurred for an investment between 05/2022 and 06/2023.

Moderate: This type of scenario occurred for an investment between 01/2018 and 12/2022.

Favourable: This type of scenario occurred for an investment between 05/2014 and 04/2019.

## WHAT HAPPENS IF CANTOR FITZGERALD ASSET MANAGEMENT EUROPE IS UNABLE TO PAY OUT?

In the unlikely event of a default of the Manager (the manufacturer) – Cantor Fitzgerald Asset Management Europe.; the sub-fund employs an independent depository (Northern Trust Fiduciary Services (Ireland) Limited) to hold and register the sub-funds' assets independent of the Manager. For further information on the depository and the sub-fund structure, please refer to the Cantor Fitzgerald Investment Trust Prospectus which can be found at: [www.cantorfitzgerald.ie](http://www.cantorfitzgerald.ie)

## WHAT ARE THE COSTS?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods:

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- EUR 10 000 is invested.

<b>Investment 10 000 EUR</b>	<b>If you exit after 1 year</b>	<b>If you exit after 5 years</b>
<b>Total costs</b>	<b>184 EUR</b>	<b>1 176 EUR</b>
Annual Cost Impact*	1.8 %	1.8 %

\*This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 7.25% before costs and 5.41% after costs.

## Composition of Costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	We do not charge an entry fee, but the person selling you the product may do so.	N/A
Exit costs	We do not charge an exit fee for this product, but the person selling you the product may do so.	N/A
Ongoing costs		
Management fees and other administrative or operating costs	1.76% The Impact of the costs that are taken each year for managing your investments. The Ongoing Charge is estimated and includes the management fee and administrative expenses and the management fees and expenses of any underlying funds held within the product.	176 EUR
Portfolio transaction costs	0.04% The Impact of the costs of buying and selling underlying investments for the product. The transaction costs may vary from year to year.	4 EUR
Incidental costs taken under specific conditions		
Performance Fee	There is no performance fee for this product.	N/A

## HOW LONG SHOULD I HOLD IT AND CAN I TAKE MY MONEY OUT EARLY?

### Recommended minimum holding period: 5 years

The units are redeemable daily and there are no exit charges. Redemption prior to the recommended holding period end may mean lower returns as noted above in the Performance Scenarios section.

## HOW CAN I COMPLAIN?
