WHAT IS THIS PRODUCT?

Type:

This investment fund is a Qualifying Investor Alternative Investment Fund (QIAIF).

Term:

This product is not subject to any fixed term.

Objectives:

The Sub-Fund is an actively managed portfolio of global equities. Comprising Transferable Securities, including bonds and equities listed on recognised markets, exchange traded funds ("ETFs"), collective investment schemes and exposures to commodities. The Fund may use FFCT's, futures, options for EPM.

Intended Retail Investor:

This Fund may not be suitable for investors who plan to withdraw their money within 5 years.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

The risk indicator assumes you keep the product for 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less. You may not be able to cash in early.

Risk indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as class 5 out of 7, which is a medium-high risk class. This rates the potential losses from future performance at a medium-high level, and poor market conditions will likely impact the capacity of the fund to pay you.

The underlying funds may include illiquid assets such as alternative funds, real estate funds and/or non-quoted assets. These assets incur additional risks which are not considered in the indicator shown above when they do not represent a significant part of the underlying funds. These risks are that these assets could not be sold or not sold at the desired time and / or lead to significant losses. You may not be able to sell your product easily or may have to sell at a price that significantly impacts on how much you get back.

Be aware of currency risk. The underlying funds may receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

The value of investments and the income derived therefrom may fall as well as rise and investors may not recoup the original amount invested. Past performance is not a reliable guide to future performance. If you invest in this fund you may lose some or all of the money you invest.

Performance scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product / a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

Moderate: This type of scenario occurred for an investment between 05/2018 and 04/2023.

Favourable: This type of scenario occurred for an investment between 01/2017 and 12/2021.

WHAT HAPPENS IF CANTOR FITZGERALD ASSET MANAGEMENT EUROPE IS UNABLE TO PAY OUT?

In the unlikely event of a default of the Manager (the manufacturer) – Cantor Fitzgerald Asset Management Europe.; the sub-fund employs an independent depository (Northern Trust Fiduciary Services (Ireland) Limited) to hold and register the sub-funds' assets independent of the Manager. For further information on the depository and the sub-fund structure, please refer to the Cantor Fitzgerald Investment Trust Prospectus which can be found at: www.cantorfitzgerald.ie

WHAT ARE THE COSTS?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods:

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- EUR 10 000 is invested.

Investment 10 000 EUR	If you exit after 1 year	If you exit after 5 years
Total costs	1 383 EUR	3 443 EUR
Annual Cost Impact*	13.83 %	6.05 %

*This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 6.28% before costs and 0.24% after costs.

Composition of Costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	4.00% The charges you pay are used to pay the costs of running the Fund including the marketing and distributing of the Fund. These charges reduce the potential growth of your investment	400 EUR
Exit costs	5.00% The Entry and Exit charges shown are the maximum figures. In some cases you may pay less. Please refer to the Administrator for actual Entry and Exit Charges	526 EUR
Ongoing costs		
Management fees and other administrative or operating costs	1.89% The Impact of the costs that we take each year for managing your investments. The Ongoing Charge is estimated and includes the management fee and administrative expenses.	236 EUR
Portfolio transaction costs	1.55% The Impact of the costs of buying and selling underlying investments for the product. The transaction costs may vary from year to year.	148 EUR
Incidental costs taken under specific conditions		
Performance Fee	0.75% The impact of the performance fee. The Manager is entitled to a 20% performance related fee. Such Performance Fee is payable to the extent that any increase in the NAV during the relevant Performance Period (Quarterly) is higher than 7% per annum pro-rated for the relevant Performance Period.	72 EUR
