

## Purpose

This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

## Product

|                              |  |
|------------------------------|--|
| <b>Product name</b>          | 4-Year Phoenix Certificate linked to the EURO STOXX® Banks (Price EUR) Index   |
| <b>Product identifier</b>    | ISIN: XS2653923693   Valor: 126294341  |
| <b>Product manufacturer</b>  | Goldman Sachs Finance Corp International Ltd, part of The Goldman Sachs Group, Inc. (see <a href="http://www.gspriips.eu">http://www.gspriips.eu</a> or call +442070510101 for more information) |
| <b>Competent Authority</b>   | Central Bank of Ireland is responsible for supervising Goldman Sachs Finance Corp International Ltd in relation to this Key Information Document.  |
| <b>Date of this document</b> | March 7, 2024 18:16:17 Dublin local time   |

**You are about to purchase a product that is not simple and may be difficult to understand.**

## What is this product?

**Type** The product is in the form of a certificate issued under English law. It is not an interest bearing security. The payment obligations of the product manufacturer are guaranteed by The Goldman Sachs Group, Inc.

**Term** The product has a fixed term and will be due on June 7, 2028.

**Objectives** The product provides the potential for capital growth and does not pay interest. What you will receive at the end of the term of the product is not certain and will depend on the performance of the index EURO STOXX® Banks (Price EUR) Index (the **underlying asset**). The product has a fixed term, ending on June 7, 2028. Each certificate has a face value of EUR 1,000. The issue price is 100.00% of the face value. The product will be listed on Luxembourg Stock Exchange (Main Segment). The subscription period is from February 14, 2024 to May 31, 2024. The issue date is June 7, 2024.

### Repayment at maturity:

On June 7, 2028, for each certificate that you hold, you will receive:

1. If the closing price of the underlying asset on May 31, 2028 is at or above 100.00% of the initial reference price, you will receive EUR 1,250.00; or
2. Otherwise, you will receive EUR 1,000.00.

The initial reference price of the underlying asset is the closing price on May 31, 2024.

The barrier is 100.00% of the initial reference price.

The product terms also provide that if certain exceptional events occur (1) adjustments may be made to the product and/or (2) the product issuer may terminate the product early. These events are specified in the product terms and principally relate to the underlying asset, the product and the product manufacturer. The return (if any) you receive on such early termination is likely to be different from the scenarios described above and may be less than the amount you invested.

**Intended retail investor** The product is intended to be offered to retail investors who:

1. have the ability to make an informed investment decision through sufficient knowledge and understanding of the product and its specific risks and rewards, with experience of investing in and/or holding a number of similar products providing a similar market exposure;
2. seek capital growth, expect the movement in the underlying asset to perform in a way that generates a favourable return and have an investment horizon of the recommended holding period specified below;
3. accept the risk that the issuer or guarantor could fail to pay or perform its obligations under the product but otherwise are not able to bear any loss of their investment;
4. are willing to accept a level of risk to achieve potential returns that is consistent with the summary risk indicator shown below; and
5. are making use of professional advice.

## What are the risks and what could I get in return?

**Risk indicator**

**The risk indicator assumes you keep the product until June 7, 2028. The actual risk can vary significantly if you cash in at an early stage and you may get back less. You may not be able to sell your product easily or may have to sell at a price that significantly impacts on how much you get back.**

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 2 out of 7, which is a low risk class. This takes into account two elements: (1) the market risk - that the potential losses for future performance are rated at a low level; and (2) the credit risk - that poor market conditions are deemed very unlikely to impact our capacity to pay you.

You are entitled to receive back at least 100.00% of the face value of the product. Any amount over this, and any additional return, depends on future market performance and is uncertain. However, this protection against future market performance will not apply if you cash in before June 7, 2028. If we are not able to pay you what is owed, you could lose your entire investment.

Inflation erodes the purchasing value of cash over time and this may result in the decline in real terms of any capital reimbursed or interest you may be paid under the investment.

**Performance scenarios** What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The scenarios shown are illustrations based on results from the past and on certain assumptions. Markets could develop very differently in the future.

| <i>Recommended holding period:</i> |  | 4 years                         |   |
|------------------------------------|--|---------------------------------|---|
| <i>Example investment:</i>         |  | EUR 10,000.00                   |   |
| <i>Scenarios</i>                   |  | <i>If you exit after 1 year</i> | <i>If you exit after 4 years<br/>(Recommended holding period)</i> |
| <b>Minimum</b>                     | <b>EUR 10,000. The return is only guaranteed if you hold the product to maturity. You could lose some or all of your investment.</b> |                                 |   |
| <b>Stress</b>                      | <b>What you might get back after costs</b>   | EUR 9,019                       | EUR 10,000  |
|                                    | Average return each year   | -9.8%                           | 0.0%  |
| <b>Unfavourable</b>                | <b>What you might get back after costs</b>   | EUR 9,146                       | EUR 10,000  |
|                                    | Average return each year   | -8.5%                           | 0.0%  |
| <b>Moderate</b>                    | <b>What you might get back after costs</b>   | EUR 9,749                       | EUR 12,500  |
|                                    | Average return each year   | -2.5%                           | 5.7%  |
| <b>Favourable</b>                  | <b>What you might get back after costs</b>   | EUR 10,333                      | EUR 12,500  |
|                                    | Average return each year   | 3.3%                            | 5.7%  |

The favourable, moderate, unfavourable and stress scenarios represent possible outcomes that have been calculated based on simulations using the reference asset's past performance over a period of up to 5 years. The stress scenario shows what you might get back in extreme market circumstances. This product cannot be easily cashed in. If you exit the investment earlier than the recommended holding period you do not have a guarantee and you may have to pay extra costs.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

## What happens if Goldman Sachs Finance Corp International Ltd is unable to pay out?

The product is not covered by an investor protection or guarantee scheme. This means that if we become insolvent, and the guarantor also becomes insolvent or otherwise fails to make full payment under the guarantee, you may suffer a total loss of your investment.

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- EUR 10,000.00 is invested

|                            | <i>If you exit after 1 year</i> | <i>If you exit after 4 years</i> |
|----------------------------|---------------------------------|----------------------------------|
| <b>Total costs</b>         | EUR 605                         | EUR 505                          |
| <b>Annual cost impact*</b> | 6.3%                            | 1.4% each year                   |

\*This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 7.1% before costs and 5.7% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

## Composition of costs

|                    | One-off costs upon entry or exit   | If you exit after 1 year |
|--------------------|--|--------------------------|
| <b>Entry costs</b> | 5.1% of the amount you pay when entering this investment. These costs are already included in the price you pay.   | EUR 505                  |
| <b>Exit costs</b>  | 1.0% of your investment before it is paid out to you. These costs are already included in the price you receive and are only incurred if you exit before maturity. If you hold the product until maturity, no exit costs will be incurred. | EUR 100                  |

## How long should I hold it and can I take money out early?

### **Recommended holding period: 4 years**

The recommended holding period for the product is 4 years as the product is designed to be held until maturity; however the product may terminate early due to an extraordinary event. You have no contractual right to terminate the product prior to maturity.

The manufacturer is under no obligation to make a secondary market in the product, but may repurchase the product prior to maturity on a case-by-case basis. In such circumstances, the price quoted will reflect a bid-ask spread and any costs associated with unwinding the hedging arrangements of the manufacturer in connection with the product. In addition, the person who sold you the product may charge you brokerage fees when you sell the product.

## How can I complain?

Any complaint regarding the person advising on or selling the product (such as your intermediary) can be submitted directly to that person. Complaints about the product and/or the conduct of the product manufacturer may be lodged in accordance with the steps set out at <http://www.gspriips.eu>. Complaints may also be addressed in writing to Goldman Sachs International, PRIIP KID - Compliance Securities, Plumtree Court, 25 Shoe Lane, London, EC4A 4AU, United Kingdom or may be sent by email to [gs-eq-priip-kid-compliance@gs.com](mailto:gs-eq-priip-kid-compliance@gs.com).

## Other relevant information

Any additional documentation in relation to the product, in particular, the issuance programme documentation, any supplements thereto and the product terms are available free of charge from the product manufacturer upon request. Where the product is issued pursuant to the EU Prospectus Regulation (Regulation (EU) 2017/1129, as amended) or the UK Prospectus Regulation (Regulation (EU) 2017/1129 as it forms part of UK domestic law by virtue of the European Union (Withdrawal) Act 2018 and regulations made thereunder, as amended), as applicable, such documentation will also be available as described on <http://www.gspriips.eu>.
