KID Production Date	10 May 2024 10:35:41 AM CET

You are about to purchase a product that is not simple and may be difficult to understand.

WHAT IS THIS PRODUCT?

► TYPE

This product is a certificate, a transferable financial instrument.

► TERM

This product has a fixed term and will redeem on the Redemption Date.

► OBJECTIVES

The objective of this product is to provide you with a return based on the performance of an underlying index.

On the Redemption Date you will receive in respect of each certificate:

1. If the Final Strategy Price is greater than or equal to 135% of the Initial Strategy Price: a payment in cash of 135% of the Notional Amount.
2. If the Final Strategy Price is less than 135% of the Initial Strategy Price:

a. If the Final Strategy Price is greater than or equal to 100% of the Initial Strategy Price: a payment in cash equal to the Notional Amount increased by the Performance of the Strategy.

b. If the Final Strategy Price is less than 100% of the Initial Strategy Price: a payment in cash equal to the Notional Amount.

Where:

- The Strategy is calculated recursively on a daily basis over the life of the certificate. The Strategy aims to replicate the performance of the Underlying fund with a mechanism of volatility control equal to 22% on a per annum basis with no synthetic dividend. The mechanism of volatility control is made by adjusting the weight allocated between the Underlying Fund and the Reference Rate in order to limit the volatility of the Strategy to 22% per annum (the maximum exposure of the Underlying Fund in the Strategy is equal to 200%)
- The Initial Strategy Price is the closing price of the Underlying on the Strike Date.
- The Final Strategy Price is the closing price of the Underlying on the Redemption Valuation Date.

► PRODUCT DATA

Strike Date	31 July 2024
Issue Date	07 August 2024
Redemption Valuation Date	29 June 2029
Redemption Date (maturity)	06 July 2029

Issue Price	100%
Product Currency	EUR
Nominal Amount per certificate	EUR 1,000

Reference Rate

3-month EURIBOR

Underlying Fund

BlackRock Global Funds World Technology Fund

Bloomberg Code

MWOTEEA LX

The product terms provide that if certain exceptional events occur (1) adjustments may be made to the product and/or (2) the Issuer of the product may terminate the product early. These events are specified in the product terms and principally relate to the Underlying(s), the product and the Issuer of the product. The return (if any) you receive on such early termination is likely to be different from the scenarios described above and may be less than the amount you invested.

All redemptions described in this document (including potential gains) are calculated on the basis of the Notional Amount, excluding costs, social contributions and taxation applicable to this type of investment.

► INTENDED RETAIL INVESTOR

This product has been designed for retail investors who:

- have a medium term investment horizon (three to five years).
- seek to invest in a capital growth product, potentially to diversify their portfolio.
- seek protection of the Notional Amount at maturity.
- have been informed or have sufficient knowledge of the financial markets, their functioning and their risks, and the asset class of the underlying.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

► RISK INDICATOR

The risk indicator assumes you keep the product until 6 July 2029. The actual risk can vary significantly if you cash in at an early stage and you may get back less. You may not be able to sell your product easily or you may have to sell at a price that significantly impacts on how much you get back.

The summary risk indicator (SRI) is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 2 out of 7, which is a low risk class.

This rates the potential losses from future performance at a low risk level, and poor market conditions are very unlikely to impact our capacity to pay you.

You will receive payments in the product's currency, which may be different from your domestic currency. In this case, be aware of currency risk. The final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

You are entitled to receive back at least 100% of your capital (capital means Notional Amount). Any amount over this, and any additional return, depends on future market performance and is uncertain. However, this protection against future market performance will not apply if you cash-in before maturity.

If we are not able to pay you what is owed, you could lose your entire investment.

For detailed information about all risks please refer to the risk sections of the legal documentation as specified in the section 'Other relevant information' below.

► PERFORMANCE SCENARIOS

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The scenarios shown are illustrations based on results from the past and on certain assumptions. Markets could develop very differently in the future.

Recommended Holding Period		06 July 2029	
Example Investment		EUR 10,000	
Scenarios		If you exit after 1 year	If you exit at call or maturity
Minimum	EUR 10,000. The return is only guaranteed if you hold the product to maturity.		
Stress scenario	What you might get back after costs	EUR 8,773	EUR 10,000
	Average return each year	-12.27%	0%
Unfavourable scenario	What you might get back after costs	EUR 9,074	EUR 10,000
	Average return each year	-9.26%	0%
Moderate scenario	What you might get back after costs	EUR 10,246	EUR 13,500
	Average return each year	2.46%	6.29%
Favourable scenario	What you might get back after costs	EUR 11,066	EUR 13,500
	Average return each year	10.66%	6.29%

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The stress scenario shows what you might get back in extreme market circumstances.

The favourable, moderate and unfavourable scenarios represent possible outcomes, which have been calculated based on simulations using the reference assets' past performance over up to 5 past years. In case of early repayment, it was assumed that no reinvestment took place.

This product cannot be easily cashed in. If you exit the investment earlier than the recommended holding period you may have to pay extra costs.

WHAT HAPPENS IF BNP PARIBAS S.A. IS UNABLE TO PAY OUT?

Should the Issuer default or file for bankruptcy, you have the right to seek payment from the Guarantor pursuant to an unconditional and irrevocable guarantee of any amount due. Should the Guarantor also default or file for bankruptcy, you may suffer a loss up to the total amount invested.

The product is not covered by any statutory investor compensation or guarantee scheme.

Investors should note that BNP Paribas, acting as Guarantor, is licensed as a credit institution in France and as such is subject to the resolution regime introduced by the EU Bank Recovery and Resolution Directive of 15 May 2014. This regulation, among others, gives resolution authorities the power to amend the key terms of the guarantee, to reduce the amounts payable by the Guarantor under the terms of the guarantee (including a possible reduction to zero) and to convert the amounts due under the guarantee into shares or other securities or other obligations of the Guarantor. Investors may not be able to recover all or even part of the amount due under the product (if any) from the Guarantor under the guarantee or may receive a different security issued by the Guarantor in place of the amount (if any) due to the Investors under the product by the Issuer, which may be worth significantly less than the amount due to investors under the product at maturity.

WHAT ARE THE COSTS?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

► COSTS OVER TIME

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods:

The duration of this product is uncertain as it may terminate at different times depending on how the market evolves. The amounts shown here consider two different scenarios (early call and maturity). In case you decide to exit before the product ends, exit costs may apply in addition to the amounts shown here.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- EUR 10,000 is invested.

BNP PARIBAS

The bank for a changing world

Investment EUR 10,000			
Scenarios	If you exit after 1 year		If you exit at maturity
Total costs	EUR 750		EUR 700
Annual cost impact ^(*)	8.06%		1.58%

(*) This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at maturity your average return per year is projected to be 7.87% before costs and 6.29% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

► COMPOSITION OF COSTS

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	7.00% of the amount you pay in when entering this investment. These costs are already included in the price you pay.	EUR 700
Exit costs	0.5%. These costs only apply if you exit your investment prior to the maturity or early call of the product. The number indicated assumes that normal market conditions applies.	EUR 50
Ongoing costs taken each year		
Management fees and other administrative or operating costs	0% of the notional of your investment per year.	EUR 0
Transaction costs	0%	EUR 0
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	EUR 0

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MY MONEY OUT EARLY?

Recommended holding period: until 06 July 2029, which corresponds to the product's maturity.

However the duration of the product is not known in advance as it may be redeemed early.

The objective of the product is to provide you with the redemption profile described under "What is this product?" above. This only applies if the product is held until maturity.

Under normal market conditions, you may sell this product in the secondary market, at a price depending on the market parameters prevailing at the time, which could put the invested amount at risk. Should you decide to resell, a fee of 0.50% will be deducted from the market price which could be increased under specific market condition.

The 0.50% commission has been taken into account in the table. In addition, the distributor may charge additional costs in the event of an exit before the maturity.

HOW CAN I COMPLAIN?

Any complaint regarding the conduct of the person advising on or selling the product can be submitted directly to that person.

Any complaint regarding the product can be submitted by writing to the following address: BNP Paribas CLM Regulations - Complaints Management, 10 Harewood Avenue, LONDON NW1 6AA, UK, by sending an e-mail to cib.priips.complaints@bnpparibas.com, or by using the online form available at the following website <https://kid.bnpparibas.com/cib>.

OTHER RELEVANT INFORMATION

The information contained in this Key Information Document does not constitute a recommendation to buy or sell the product and is no substitute for individual consultation with your bank or advisor.

For a complete information on the product, including the risks involved, you should read the related legal documentation, which is available free of charge from your financial advisor.

This product may not be offered or sold, directly or indirectly, in the United States of America or to U.S. persons. The term "U.S. person" is defined in Regulation S under the U.S. Securities Act of 1933 (Securities Act). The offering of this product has not been registered under the Securities Act.
